 *Takes about 6 minutes to read*

1

STEP 1 OF 6

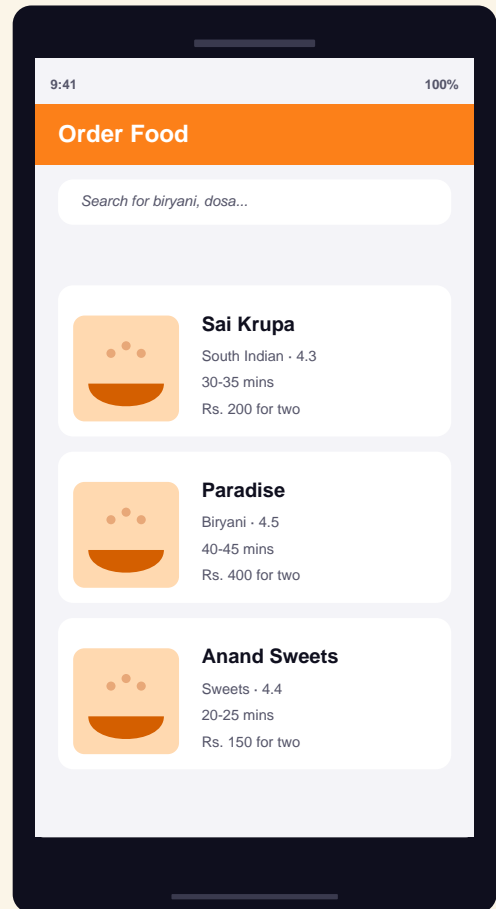

Open Swiggy or Zomato

Both apps work the same. Pick whichever you have, or whichever your family uses.

First time using either, the app asks for your location. Tap 'Allow' — it needs to know where to deliver.

TIP

If you don't have the app, install from Play Store. Both Swiggy and Zomato are free to install.

2

STEP 2 OF 6

Confirm your address

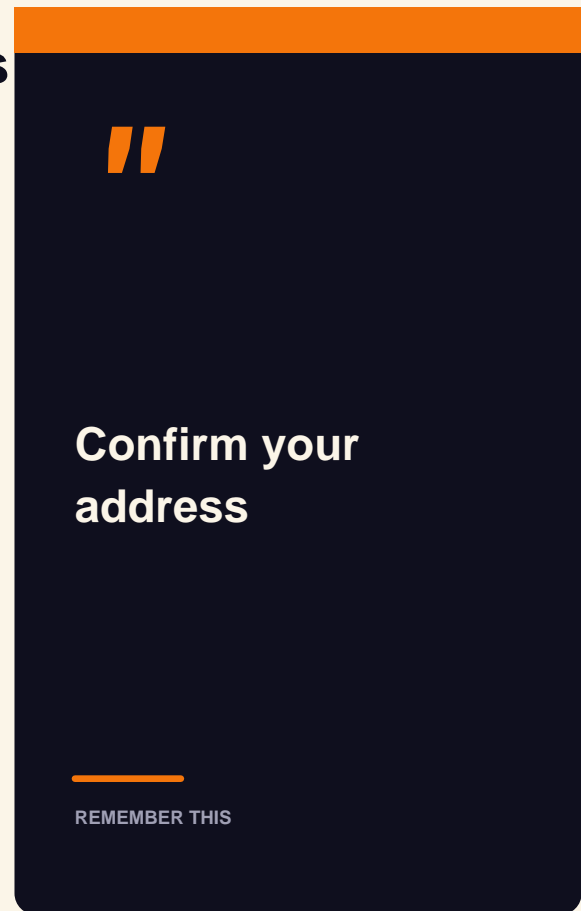

The app shows your location at the top. Tap it to add details:

- House number / flat number
- Building name
- Landmark (like 'opposite Apollo')

Save the address with a name like 'Home'. You only do this once.

● **TIP**

Add your phone number too — the delivery person will call if they can't find you.

3

STEP 3 OF 6

Browse restaurants

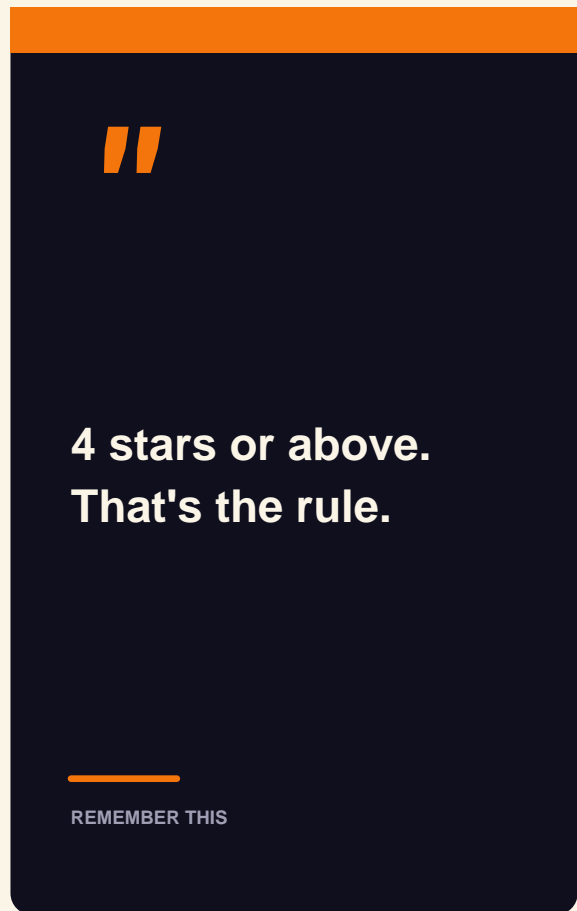

The app shows restaurants near you. Each restaurant card shows:

- Name
- Type of food (Biryani, Chinese, etc.)
- Star rating (4.0+ is good)
- Delivery time

Tap any restaurant to see their menu.

● **TIP**

If a restaurant has a low rating like 3.0, skip it. Stick with 4.0 or more.

4

STEP 4 OF 6

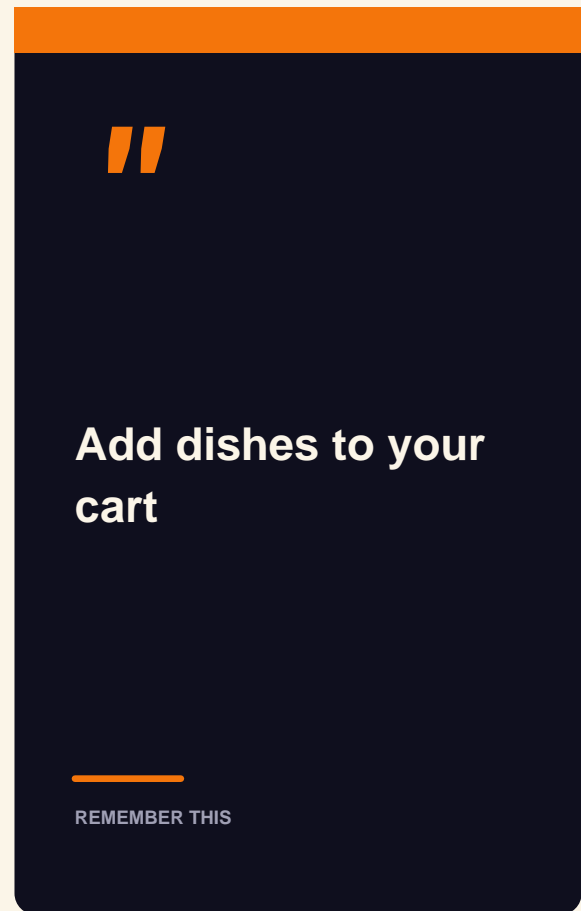

Add dishes to your cart

On the menu page, you see all dishes with prices and photos.

Tap '+' next to any dish to add it. The number turns into '1'. Tap '+' again to add another. Add as many dishes as you want.

TIP

Watch out for minimum order amount. Some restaurants need Rs. 99 minimum. The app warns you.

5

STEP 5 OF 6

Review your order and pay

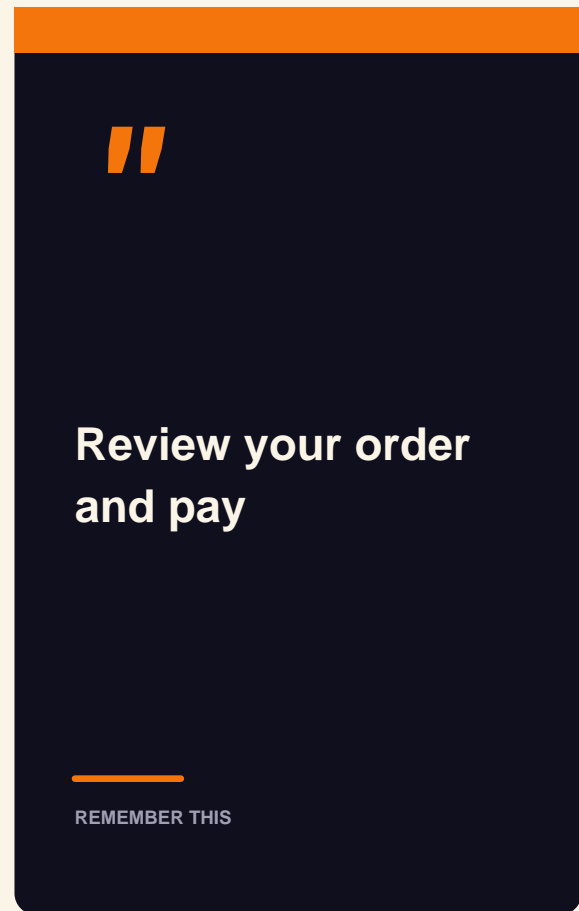

Tap 'View Cart' or 'Checkout'. You see:

- Each dish + price
- Delivery charge
- GST (tax)
- Total amount

Pick payment: UPI, card, or 'Cash on Delivery'.
Tap 'Place Order'.

● **TIP**

First time? Choose 'Cash on Delivery'. Pay the delivery person when food arrives. Safer than online for first try.

6

STEP 6 OF 6

Track your order

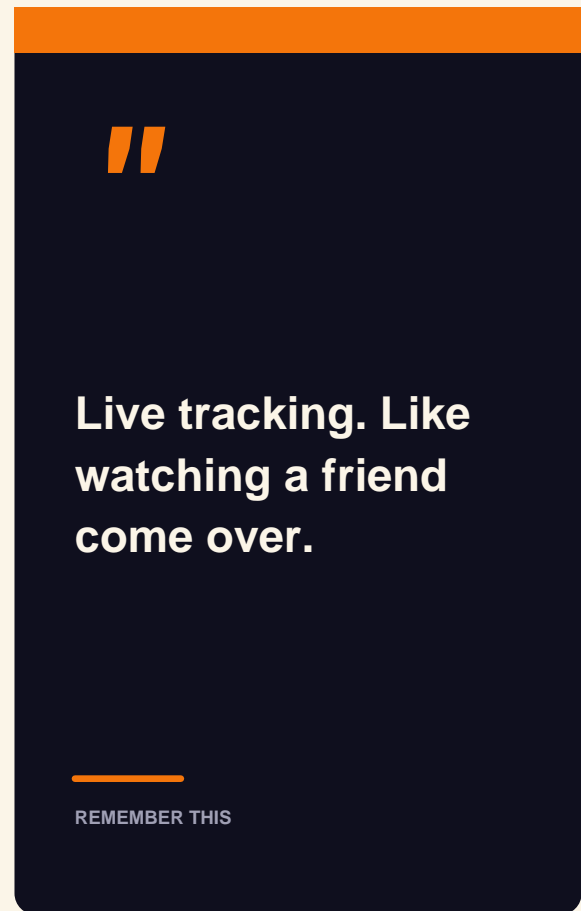

After ordering, the app shows you live status:

- 'Restaurant accepted'
- 'Food being prepared'
- 'Delivery person picked it up'
- 'On the way' — with map!

When food is 1 minute away, your phone rings.
Pick up, the delivery person is at your door.

● **TIP**

Tap 'Help' or 'Support' in the app if anything goes wrong. They reply in minutes.

QUICK RECAP

Food, delivered.

1

Allow location

Tap Allow when the app asks. It needs to know where to deliver food.

2

Add full address with landmark

Building name, flat number, landmark — save it once as 'Home' and you're set forever.

3

4-star+ restaurants only

Check ratings. Below 4 stars, food is often poor quality. Stick to good ones.

4

Cash on Delivery for first try

First time? Pay cash when food arrives. Safer than paying online when you're new.

5

Track in real time

The app shows where the delivery person is. You'll know when to come to the door.
