

# Electricity, water, gas. *Paid in 2 minutes.*

No more standing in line at the bill counter. Pay electricity, water, gas, and phone bills from your sofa — using PhonePe, GPay, or Paytm.

## WHAT'S INSIDE

- ✓ Open Bills section in your UPI app
- ✓ Pay any bill in 2 minutes
- ✓ Save your bills for next time

— WHY THIS MATTERS

# Every bill — paid from your sofa.

Your UPI app (GPay, PhonePe, Paytm) can pay all your bills:

- Electricity
- Water
- Mobile recharge
- DTH (Tata Sky, Airtel)
- Gas (LPG)
- Internet (Airtel Fiber, Jio)

Pay once and the app remembers — next month, even faster.

## WHAT YOU'LL LEARN

- Find the Bills section
- Add your bill account
- Pay any bill
- Save for automatic next time

 *Takes about 5 minutes to read*

1

STEP 1 OF 6

## Find 'Bills' or 'Recharge'

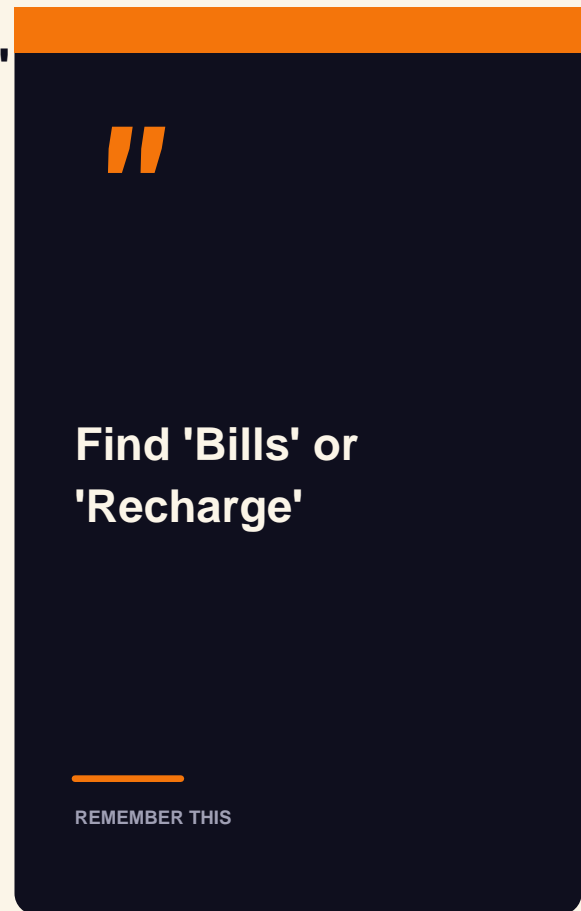

Open your UPI app. On the home screen, look for:

- 'Recharge & Bills'
- 'Pay Bills'
- 'Bill Payments'

It's usually a colorful icon near the top of the screen. Tap it.

**TIP**

If you don't see it, tap 'See All' or 'View All' on the home screen — it'll be in the full list.

2

STEP 2 OF 6

## Pick the bill type

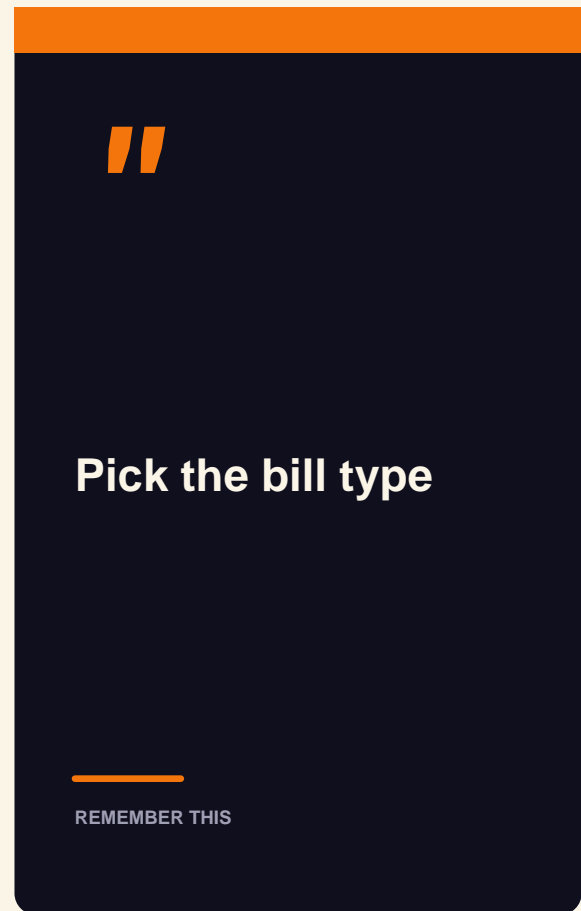

You'll see a list:

- Mobile Recharge
- Electricity
- Water
- Gas
- DTH
- Postpaid Mobile
- Broadband

Tap the one you want to pay.

**TIP**

Each bill has different details. Mobile asks for phone number. Electricity asks for consumer ID.

3

STEP 3 OF 6

## Pick your provider

After choosing bill type, the app asks WHICH company.

For electricity in Hyderabad: TSSPDCL or APSPDCL

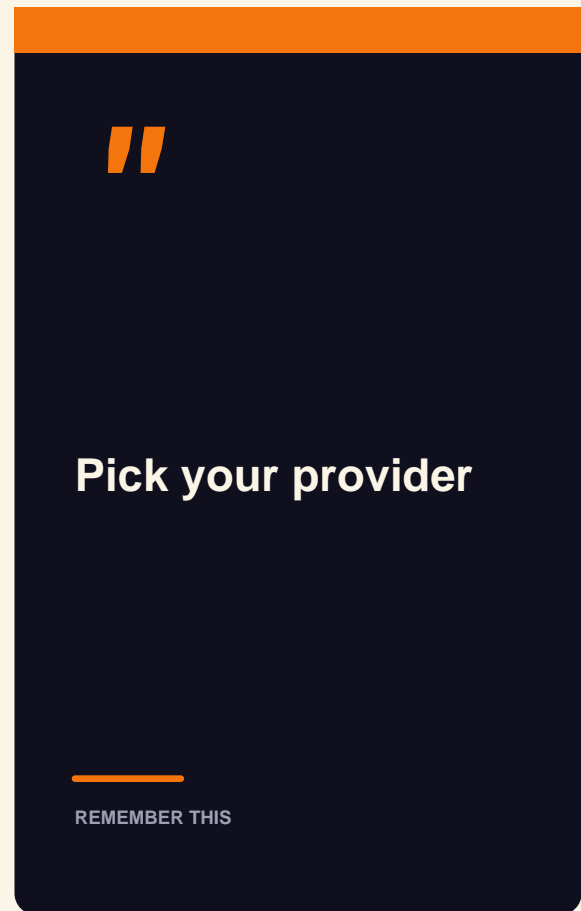

For mobile: Airtel, Jio, Vi, BSNL

For DTH: Tata Sky, Dish TV, Airtel Digital TV

Pick what's on your bill.

● **TIP**

Look at your old bill (paper) — the company logo is at the top. Match it with the app.

4

STEP 4 OF 6

## Enter the account number

Now type your bill account number — sometimes called:

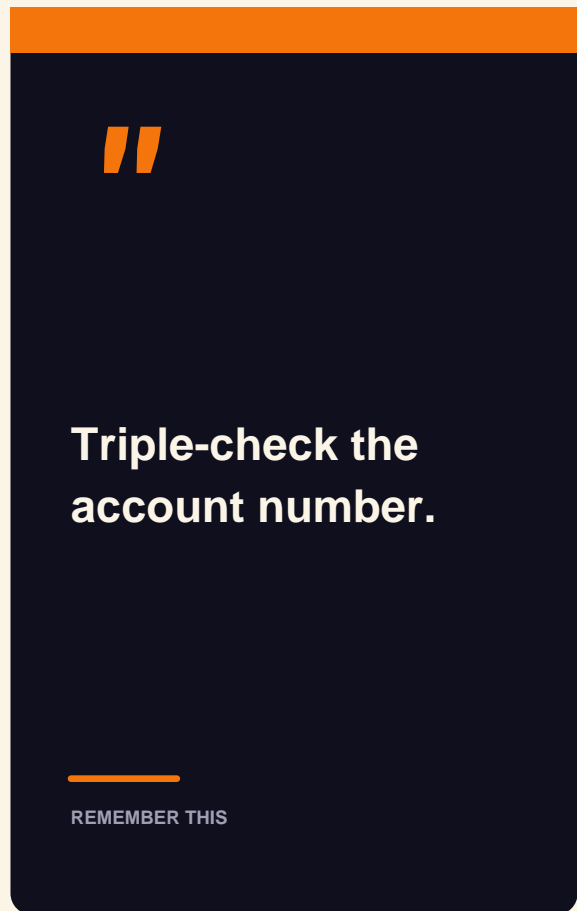

- Consumer Number (electricity)
- Service Number
- Customer ID
- Connection Number

It's printed on your latest bill. Type it carefully.

### WARNING

**Wrong account number = paying someone else's bill. Triple-check the number. The app shows the consumer name after you enter — verify it's YOUR name.**

5

STEP 5 OF 6

## Review and pay

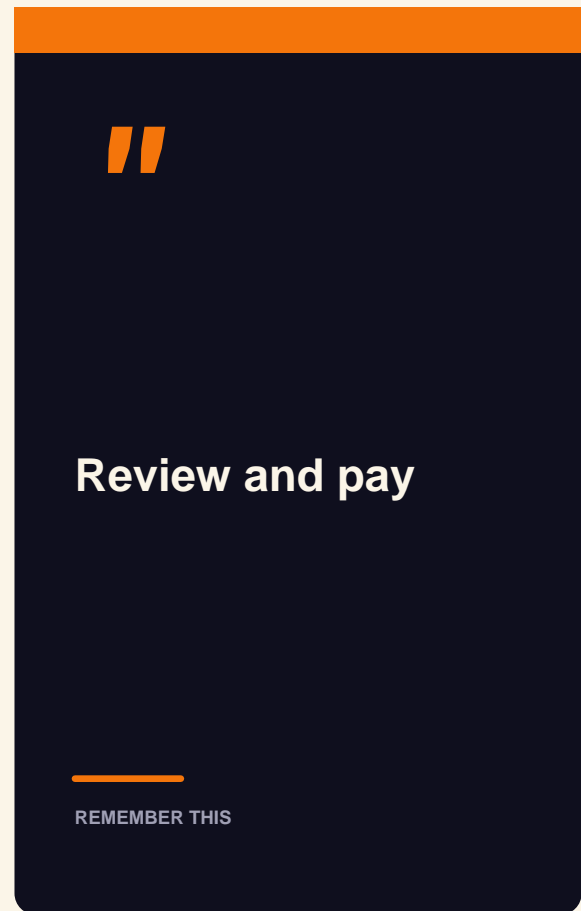

The app shows:

- Your name (verify it's YOU)
- Bill amount
- Due date

Tap Pay. Enter your UPI PIN. Done. The bill is paid. You'll see a green tick and a receipt.

**TIP**

Take a screenshot of the receipt. If your provider takes 2-3 days to update records, your screenshot is proof.

6

STEP 6 OF 6

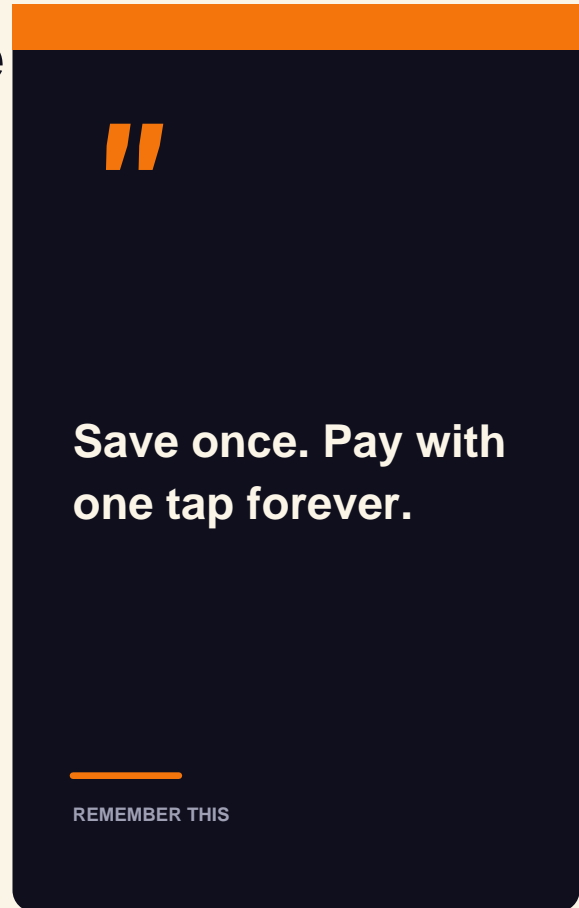

## Save for next time

After paying, the app asks 'Save this bill?'

Tap YES. Next month, you don't need to type the consumer number again. The app shows your bill amount automatically. Pay with one tap.

**TIP**

You can also turn on auto-pay — but only if your bill amount is similar each month. Better to review and pay manually.

---

— QUICK RECAP

# Bills, in 2 minutes.

**1**

## Open Bills in your UPI app

GPay, PhonePe, Paytm — all have a 'Bills' or 'Recharge' section. Tap it.

**2**

## Find your provider name

Match the company name on your paper bill with the app's options. TSSPDCL, BSNL, Airtel, etc.

**3**

## Account number is on your bill

Look for 'Consumer Number' or 'Service Number' on your old bill. Type carefully.

**4**

## Verify YOUR name

Before paying, the app shows the bill account holder's name. Match it with yours. Wrong name = stop.

**5**

## Save bills for next month

Once paid, save the bill in the app. Next month, paying takes 10 seconds.
